

NIPA OFFERS INTEGRATED RETIREMENT'S TRAINING AND CONTENT SERVICES TO TPA FIRMS

For Immediate Release: November 17, 2011

Brainerd, MN, November 17, 2011 – The National Institute of Pension Administrators (NIPA) strengthens its commitment to TPAs and its vision for enhanced TPA support by partnering with Integrated Retirement to deliver a quarterly retirement plans update addressing issues critical to TPAs.

The update is prepared by Integrated Retirement's regulatory action team and is delivered through convenient, on-demand access from the NIPA member's favorite mobile and internet access device. Accompanying each quarterly update is a brief summary of the issues addressed in the update. This summary is prepared specifically for firms to incorporate into their plan sponsor and financial adviser communications program.

"It's far too easy to get lost in the plethora of information relative to our ever-changing business," stated Stacey Tuttle, Esq., Compliance Manager at Retirement Alliance, "and a resource that summarizes, without bias, the overwhelming amount of information we are faced with on a daily basis and provides meaningful insight and support into the meaning and impact on our plan sponsors, is of great value to me and my firm."

As you may recall, the principals of Integrated Retirement collaborated with NIPA to design and develop the *A Comprehensive Guide to 401(k) Plans* and *IRA Essentials* certificate programs launched in 2010.

ABOUT INTEGRATED RETIREMENT

Integrated Retirement is an independent privately held corporation located in Baxter, MN. It's deep retirement plan expertise and industry insights are delivered through innovative content solutions, training programs, and instant access support services. The principals are industry experts with hands-on experience in communicating to the broad spectrum of stakeholders in the retirement industry; advisers, plan sponsors, participants, and operations staff. Integrated Retirement's principals have a proven track record of helping elite financial organizations achieve retirement plan mastery across all sales, marketing, service and support disciplines.

ABOUT NIPA

This nationwide educational association representing the pension administration profession fosters the highest standard of ethical and professional conduct by providing self-improvement outlets to all members and interested parties. NIPA offers two main educational programs each year: the executive-focused Business Management Conference and the all level Annual Conference. The association sponsors two professional designation programs: the Accredited Pension Administrator (APA) and the Accredited Pension Representative (APR). To supplement its educational programming, NIPA promotes local chapters and publishes a quarterly newsletter. For more information, visit www.nipa.org.

Parties interested in learning more and enrolling should contact NIPA 800-999-NIPA (6472) or visit www.nipa.org.
